

# Sophistication - Simplicity - Support

# More Reasons to Go With The PRO

LABSYSTEM™ PRO  
EP Recording System

#### Features:

- Enhanced report generation
- Enabled patient review mode
- Support for the CLEARSIGN™ Amplifier
- Robust archiving

Intuitive **MicroPace Cardiac Stimulator** line with enhanced software for exceptional stimulation, control, and ease of use.

## Continued Excellence for Your Evolving EP Lab Needs

- Hardware and software upgrades for added flexibility on this platform
- Superior electrogram signal processing and analysis
  - Customizable layout and procedure flow
- Waveform export in a variety of raw and image formats: ASCII, Binary, JPG, and BMP
- Enhancements to user interface for improved patient assessment
- Clinical EP expertise designed into every product and feature
- Exceptional warranty and service options available for peace of mind
- Dedicated clinical and technical specialists for support and training

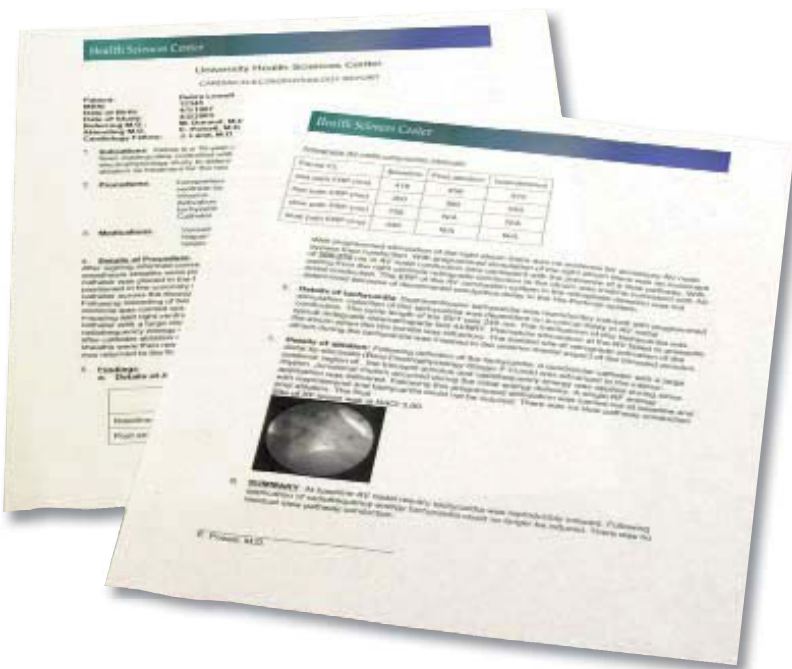

## LABSYSTEM™ PRO. Now Better Than Ever.

Enhanced **Report Generator** seamlessly creates a professional and informative patient record by automatically capturing user-defined study log information into a customizable template. Waveforms and fluoroscopy images can also be included to deliver the most complete picture of the patient's diagnosis and treatment.

**Patient Review Mode** provides important improvements to work flow management by allowing the physician or user to use the clinical LABSYSTEM™ PRO EP Recording System as a workstation for case review, study annotation, and report generation.

The **CLEARSIGN™ Amplifier** delivers excellent signal quality with unique adaptive noise filtering and up to 160 intracardiac channels.

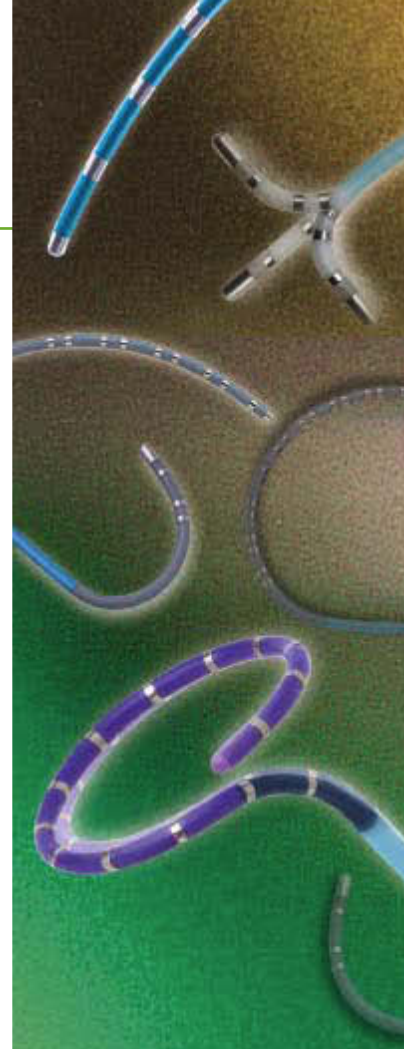

Advanced **Patient Data Archiving** offers increased archiving confidence with improved status updates and data verification.

*sophistication*      **Sophistication made simple.**      *simple*

Before use, consult product labels and inserts for any indications, contraindications, hazards, warnings, cautions and instructions for use.
